Dear Hiring Manager,

I am a Senior Software Engineer with 7+ years of experience, specializing in performance optimization, microservices, and scalable architectures. I've delivered measurable business impact across e-commerce, fintech, and analytics platforms, consistently improving performance, reliability, and user experience.

Key Highlights

- **Tech Stack:** Python (7+), FastAPI/Django/Flask (6), JavaScript/React/Next.js (5–6), Node.js/TypeScript (4), Go/Java/C++ (3).
- **Systems & Arch:** Microservices, Distributed Systems, REST/GraphQL/gRPC (6).
- **Databases:** Postgres/MySQL/MongoDB/Redis (6), Cassandra/DynamoDB/Elasticsearch (4), Neo4j/Influx/Timescale (3).
- **Messaging/Streaming:** Kafka, RabbitMQ, AWS SQS (5), Google Pub/Sub (4).
- **Cloud & DevOps:** Docker/Kubernetes (6), AWS/GCP (5), Azure (4), Helm (5), Terraform/Ansible (4), CI/CD (6).
- **Monitoring & Security:** Prometheus, Grafana, ELK, NewRelic/Datadog (4–5), OAuth2/JWT/RBAC (5).
- **Leadership:** 5+ years leading teams, mentoring engineers, driving projects from vision to production.

Achievements

- **NAV Backoffice:** Reduced Golang API p99 latency from 40s → 40ms; cut job runtime 200s → 9s (22x speedup); resolved critical memory leaks in FastAPI; integrated end-to-end monitoring with Grafana, Jaeger, and Kibana.
- **ShyftLabs:** Built pipelines handling billions of logs; migrated APIs to TDD with 98% coverage; delivered POS system across 2600+ US retail stores using Next.js + FastAPI.
- **Ornaz:** Led e-commerce platform migration from monolith → microservices (99.99% uptime); achieved Lighthouse 100/100 and <500ms loads; developed real-time campaign system improving conversion funnel; engineered AR/3D virtual trial rooms boosting engagement by 40%+ and sales by 25–30%.

Projects

- **Semantic Search & AI Chatbot:** RAG Built on FastAPI, Elasticsearch, OpenAI LLMs, vector DBs.
 - **Diamond Compare & Virtual Try-On:** Increased user engagement 20–35% and conversions by double digits.
 - **Monitoring Dashboards:** Designed Grafana/Prometheus/ELK based panels for real-time observability and alerting.
-

I am passionate about building reliable products, automating the boring stuff, and driving measurable business outcomes—while keeping teams aligned and codebases clean. I look forward to discussing how my skills in system design, engineering leadership, and product delivery can help drive results for your team.

Best regards,

Ashutosh Verma
